YUBAN

THE DAHLIA
WITHOUT A FAULT

Grown by

ALFRED E. DOTY

123 Morris Avenue

Morris Cove

New Haven, Connecticut

YUBAN. THE DAHLIA WITHOUT A FAULT

In this Dahlia we have the largest, free-flowering and most attractive show Dahlia grown. A very strong, robust plant, carrying its flowers on strong, stiff stems, well above the dark green foliage. Color, a golden yellow with a distinct red stripe through each petal. A prize winner wherever shown.

The price (which is in reach of all)

.50

To My Friends of 1920:-

In compiling this catalogue, it gives me great pleasure to thank my many friends for the liberal patronage and recommendations given me during the past year, which has been the most succesful season I have had in growing the Dahlia.

It is very evident that the Dahlia loving people are appreciating the fast strides that are being made in this beautiful flower, for there has never been such a demand for the new and better varieties than now.

To be a successful grower, one must keep in touch with the different growers and exhibitions in order to secure the best the market affords.

It requires no more space or attention to grow a good Dahlia than a poor one. **Why not grow the best?**

In this booklet you will notice I have omitted many of the glowing descriptions which I believe are misleading and confusing, and can serve to no good purpose.

Again I call your attention to the growing of the Seedling, which is very interesting and fascinating.

I take pains to select seeds from the best of my Dahlias. This enables me to offer Dahlia seeds that will give the best results.

Visitors are always welcome to my Dahlia garden, especially in blooming time when they can make their selection from the flowering plant and get better ideas than from a catalogue.

I am always willing to impart any knowledge I may possess to aid you in growing this beautiful flower.

A. E. DOTY

THE CACTUS DAHLIA.

Distinguished by its long, twisted or pointed petals, which are often incurved, resembling the Chrysanthemums. The most popular type of the day.

Scarlet Queen	Intense scarlet. collar golden yellow	.50
Souv. De-Chabone	Lemon yellow, marked coral red collar yellow and white	.20
Volcano	Crimson tipped, edged yellow collar yellow	.25

CULTURAL NOTES

Dahlias will grow and bloom in almost any kind of soil, but do not have it too rich as this will tend to foliage at the expense of blooms. More failures are caused by soil being too rich than too poor.

Plants in full sunlight and away from the roots of trees and hedges.

The size of the tuber has no effect on the size of the flowers; small tubers are as good as large ones.

Do not plant too early; from the middle of May until the middle of June is best in this latitude and good results may be had by planting as late as July first.

Always lay the tubers flat, with the sprout up, and cover with six inches of soil.

When plants are up about one foot, pinch out the center. Water freely.

Keep all dead and faded blooms picked off and do not be afraid of cutting off buds; more will come to take their place. Grow as far as possible to a single stalk, keep your ground well cultivated, and you will have plenty of flowers.

To keep cut blooms of Dahlias, burn the tips of the stems on a gas stove, or put the stems of the flowers in a pitcher containing three inches of boiling water, and leave there fifteen minutes. Remove and put the stems in a vase of fresh water containing a teaspoonful of salt to the quart.

SPECIAL OFFERS

For the benefit of those who are not familiar with the names, color and characteristics of the Dahlia, and wish to have the selection made from them, I make the following special priced collections:

No. 1. COLLECTION—12 named varieties several classes, my own selection, no two alike, and each labeled. \$1.00

No. 2. COLLECTION—12 good 25¢ varieties, my own selection, no two alike, and each one labeled \$2.00

No. 3. COLLECTION—12 extra fine high priced varieties, my own selection, no two alike, and each one labeled \$3.00

No. 4. COLLECTION—10 of my best exhibition varieties, no two alike, and each one labeled. \$5.00

No. 5. COLLECTION—20 un-named varieties, all standard goods, but labels lost in handling, a big bargain, but supply limited. \$1.00

RATES

The priced named include pre-payment of postage. If wanted by express collected, extra tubers will be added sufficient to cover express charges.

No orders sent C. O. D. Remittances need not necessarily accompany an order, but when order is packed and ready for shipment, notice will be given and upon receipt of payment same will be forwarded at once.

I guarantee all my stok sent out by me to be as represented; true to name and in strong, healthy condition.

Order early. Orders executed in strict rotation. We commence shipping about May 15th.

Sincerely yours,
ALFRED E. DOTY

Do not fail to visit our fall exhibition in September.
